

CURRICULUM VITAE

January, 2009

Carey E. Priebe
Department of Applied Mathematics & Statistics
Whiting School of Engineering
Johns Hopkins University
Baltimore, MD 21218-2682

cep@jhu.edu
<http://www.ams.jhu.edu/~priebe>

EDUCATION

Ph.D., Information Technology (Computational Statistics), George Mason University, May 1993
M.S., Computer Science, San Diego State University, May 1988
B.S., Mathematics, Purdue University, December 1984

PROFESSIONAL EXPERIENCE

2001 – Present Professor, Department of Applied Mathematics & Statistics, Johns Hopkins University
1999 – 2001 Associate Professor, Department of Mathematical Sciences, Johns Hopkins University
1994 – 1999 Assistant Professor, Department of Mathematical Sciences, Johns Hopkins University
1991 – 1994 Mathematician, Naval Surface Warfare Center, Dahlgren, VA
1985 – 1991 Scientist, Naval Ocean Systems Center, San Diego, CA

Carey E. Priebe received the BS degree in mathematics from Purdue University in 1984, the MS degree in computer science from San Diego State University in 1988, and the PhD degree in information technology (computational statistics) from George Mason University in 1993. From 1985 to 1994 he worked as a mathematician and scientist in the US Navy research and development laboratory system. Since 1994 he has been a professor in the Department of Applied Mathematics and Statistics, Whiting School of Engineering, Johns Hopkins University, Baltimore, Maryland. At Johns Hopkins, he holds joint appointments in the Department of Computer Science, the Center for Imaging Science, and the Whitaker Biomedical Engineering Institute. He is a past President of the Interface Foundation of North America - Computing Science & Statistics, a past Chair of the American Statistical Association Section on Statistical Computing, current Vice President of the International Association for Statistical Computing, and on the editorial boards of *Journal of Computational and Graphical Statistics*, *Computational Statistics and Data Analysis*, and *Computational Statistics*. His research interests include computational statistics, kernel and mixture estimates, statistical pattern recognition, statistical image analysis, dimensionality reduction, model selection, and statistical inference for high-dimensional and graph data. He is a Senior Member of the IEEE, an Elected Member of the International Statistical Institute and a Fellow of the American Statistical Association.

Nonparametric and Robust Methods	550.424, Fall 1994	(6)

@ George Mason University:

Kernel & Mixture Estimates	CSI 790, Summer 1994	(5)
Exploratory Data Analysis	CSI 773, Spring 1994	(20)
Statistical Pattern Recognition	CSI 790, Summer 1993	(15)

STUDENTS SUPERVISED

Xugang Ye, Ph.D. (2008)

Dissertation Title: Random Disambiguation Paths: Models, Algorithms, and Analysis

Defended: September 2008

(Co-advisor with Shih-Ping Han)

Al Aksakalli, Ph.D. (2007)

Dissertation Title: Protocols for Stochastic Shortest Path Problems with Dynamic Learning

Defended: March 2007

Al is now Senior Consultant for Lityx: ala@jhu.edu

(Co-advisor with Donniell Fishkind)

Kendall Giles, Ph.D. (2007)

Dissertation Title: Knowledge Discovery in Computer Network Data: A Security Perspective

Defended: October 2006

Kendall Giles is now Assistant Professor at Virginia Commonwealth University: kgiles@acm.org

Majnu John, Ph.D. (2005)

Dissertation Title: A data-adaptive methodology for finding an optimal weighted generalized MWW statistic

Defended: January 2005

Majnu John holds the position of Research Biostatistician position at Children's Hospital of Philadelphia.

johnm@email.chop.edu

Elvan Ceyhan, Ph.D. (2005)

Dissertation Title: An Investigation of Proximity Catch Digraphs in Delaunay Tessellations

Defended: October 2004

Elvan Ceyhan is now Assistant Professor, Department of Mathematics, Koc University, Istanbul: elceyhan@ku.edu.tr

Jason DeVinney, Ph.D. (2003)

Dissertation Title: The Class Cover Problem and its Applications in Pattern Recognition

Defended: November 2002

Jason DeVinney is now at Center for Computing Sciences: jgdevin@super.org

Adam Cannon, Ph.D. (2001)

Dissertation Title: Approximate Distance Methods in Classification

Defended: May 2000

Adam Cannon is now at Columbia University: cannon@cs.columbia.edu

(Co-advisor with Lenore Cowen)

Peng Tao, Ph.D. (2000)

Dissertation Title: The Generalized Borrowed Strength Method and the Application to Image Recognition

Defended: March 2000

Peng Tao is now at AccuImage: peng_tao2000@yahoo.com

Dalei Chen, Ph.D. (2000)

Dissertation Title: Borrowed Strength Density Estimation and Applications

Defended: November 1999

Dalei Chen is now at Bristol-Myers Squibb: dalei.chen@bms.com

Jingdong Xie, Ph.D. (1999)

Dissertation Title: Generalizing the Mann-Whitney-Wilcoxon Statistic

Defended: April 1999

Jingdong Xie is now at Forest Research Institute: jingdong.xie@frx.com

Thesis Committee (2nd Reader) for Dominic Lee, Ph.D. (1996)

Dominic Lee is now at University of Canterbury, Christchurch, New Zealand: D.Lee@math.canterbury.ac.nz

Allison Barker, M.S. (2003)

Thesis Title: Statistical Testing on Labelled Cortical Distance Maps to Identify Dementia Progression

Karen Shahar, M.S. (2000)

Thesis Title: Quantitative Differentiation of Breast Lesions Based on 3-D Morphology from MR Imaging
(Co-advisor with Cheng Cheng)

Current Research Advisees:

- Xugang Ye (ABD), working in the area of random disambiguation paths & mark information monotonicity
(jointly supervised with Shih-Ping Han)
- Libby Beer (ABD), working in the area of statistical inference for random graphs
(jointly supervised with Ed Scheinerman)
- Zhiliang Ma (ABD), working in the area of statistical pattern recognition
- Adam Cardinal-Stakenas (ABD), working in the area of statistical pattern recognition
- Andrey Rukhin (ABD), working in the area of statistical inference for random graphs
- Ting Yang (ABD), working in the area of kernel and mixture estimates and semisupervised learning
- Nikhil Ram Mohan (graduate student), working in the area of statistical inference for brain shape analysis
- Henry Pao (graduate student), working in the area of statistical inference for random graphs

Graduate Research Assistant Advisor: Dalei Chen, Jingdong Xie, Peng Tao, Adam Cannon, Colin Wynne, Clyde Schoolfield, Leslie Cope, Chris Wagner, Nevin Kapur, Jiang Hu, Heng Zhang, Jason DeVinney, Elvan Ceyhan, Xiaoling Wu, Allison Barker, Kendall Giles, Majnu John

Undergraduate Research Assistant Advisor: Puneet Chopra, Alex Riemer, Marc Silhavy, Karen Shahar, Allison Barker, Dan Ransenberger, Ahad Khan, Julie Flannery

PostDocs Supervised

Bennett Landman (AY 2008–); Nam Lee (AY 2008–); Damianos Karakos (AY 2003–2005); Youngser Park (AY 2003–2004); Diego Socolinsky (AY 2000–2004); Rida Mustafa (AY 2001–2002); Sung Ahn (AY 1998–1999); Tim Olson (AY 1997–1998)

HONORS

Erskine Fellow, University of Canterbury, Christchurch, New Zealand, 2009

National Security Science and Engineering Faculty Fellow, 2008

Robert B. Pond, Sr., Excellence in Teaching Award, 2008

Senior Member, IEEE (Elected 2008)

Elected Member of the International Statistical Institute (Elected 2007)

Fellow of the American Statistical Association (Elected 2002)

ASEE Sabbatical Leave Fellow, 2000–2001

Office of Naval Research Young Investigator Award, 1995–1998

Oraculum Award for Excellence in Teaching, Johns Hopkins University, 1994

Outstanding Ph.D. Dissertation in Statistical Sciences Award, George Mason University, 1993

EDITORIAL POSITIONS

Associate Editor, *Computational Statistics and Data Analysis*, 1999–

Associate Editor, *Journal of Computational and Graphical Statistics*, 2000–

Associate Editor, *Computational Statistics*, 2004–

COMMITTEE & PANEL MEMBERSHIP

Board of Directors, Computing Science and Statistics: Interface Foundation of North America (IFNA) (1997–2003); President, 2001–2004

Chair, American Statistical Association (ASA) Section on Statistical Computing (Elected 2002)

Vice President International Association for Statistical Computing (IASC) a Section of the International Statistical Institute (ISI) (Elected 2007–2009)

Chair, Institute of Mathematical Statistics (IMS) New Researchers Committee (1998–2000)

Office of Naval Research (ONR) / American Society for Engineering Education (ASEE) Research Evaluation Committee (1998–)

IMS representative to CBMS (Conference Board of the Mathematical Sciences) (2000–2003)

National Science Foundation Statistics & Probability Screening Panel (FY05)

National Representative and Chapter Secretary for the Maryland Chapter of the American Statistical Association (1995–1999)

NSWCDD (Naval Surface Warfare Center Dahlgren Division) FY00 ILIR (Internal Laboratory Independent Research) Program Review Committee (2000)

Conflict of Interest Committee, Johns Hopkins University, Whiting School of Engineering (2002–)

Library Advisory Committee, Johns Hopkins University, Whiting School of Engineering (2002–)

Applied and Computational Mathematics Program Committee, Johns Hopkins University, Whiting School of Engineering, Part-Time Programs in Engineering and Applied Science (1997–2003)

Joint Appointment, Johns Hopkins University Department of Biomedical Engineering

Johns Hopkins University Biomedical Engineering Institute Imaging Group Planning Committee (1999)

Academic Affairs Committee, Department of Mathematical Sciences, Johns Hopkins University (AY 94-95
– 99-00 & 01–; Chair AY 99-00 & 01–)

JHU Secondary BME Faculty

Program Committees:

The International Statistical Institute's 57th Biennial Session, Durban, South Africa, August 2009
Scientific Committee for the SAMSI program on National Defense and Homeland Security for 2005-06.
Organizing Committee for IPAM Graduate Summer School: Intelligent Extraction of Information, July 2005.
34th Symposium on the Interface: Computing Science and Statistics, Montreal, Canada, April 2002.
The International Statistical Institute's 53rd Biennial Session, Seoul, South Korea, August 2001
(IASC Program Chair).
1999 Joint Statistical Meetings, Baltimore, MD, August 1999.
1999 IMS New Researchers' Conference, Baltimore, MD, August 1999
(Program Chair).
30th Symposium on the Interface: Computing Science and Statistics, Minneapolis, MN, May 1998.
XIII COMPSTAT Conference of the IASC, Bristol, England, August 1998.

OTHER PROFESSIONAL ACTIVITIES

Invited Session Organizer:

17th COMPSTAT Symposium of the IASC, Rome, August 2006
"Modeling and Statistical Inference for Time Series of Graphs"
The International Statistical Institute's 55th Biennial Session, Sydney, Australia, April 2005
"Pattern Recognition in High Dimensions"
34th Symposium on the Interface: Computing Science and Statistics, Montreal, Canada, April 2002.
"Random Graphs for Statistical Pattern Recognition"
2000 Joint Statistical Meetings:
"Consistent Estimation of Mixture Complexity"
1999 Joint Statistical Meetings:
"Statistical Education at the Interface: Distance Learning/Computers in the Classroom"
30th Symposium on the Interface: Computing Science and Statistics: Interface '98:
"Nonparametric Density Estimation"

Referee: Journal of the American Statistical Association, Journal of Statistical Planning and Inference, Journal of Nonparametric Statistics, Journal of Computational and Graphical Statistics, Computational Statistics and Data Analysis, Canadian Journal of Statistics, Statistics and Probability Letters, Communications in Statistics, IEEE Transactions on Information Theory, IEEE Transactions on Pattern Analysis and Machine Intelligence, IEEE Transactions on Systems, Man, and Cybernetics, Pattern Recognition Letters, Image and Vision Computing, Computerized Medical Imaging and Graphics, Naval Research Logistics, American Mathematical Monthly, Journal of Mathematical Sociology, Chemical Reviews

Proposal Reviewer: National Science Foundation, Department of the Navy, Department of the Army, Department of Energy, Department of State

Member: American Statistical Association (ASA), Institute of Mathematical Statistics (IMS), Interface Foundation of North America (IFNA), International Association for Statistical Computing (IASC), IEEE, Sigma Xi – The Scientific Research Society

Affiliated Faculty:

Johns Hopkins University Center for Imaging Science (CIS)
Johns Hopkins University Center for Language and Speech Processing (CLSP)
George Mason University Center for Computational Statistics
NSWCDD B10: The Advanced Computation Technology Group

INVITED PRESENTATIONS

Invited to present “On the role of the conditionality principle in dimensionality reduction” at Multiscale Geometry and Analysis in High Dimensions, October 25-29, 2004, IPAM, UCLA.

Invited to present “Iterative denoising for cross-corpus discovery” at the Army Conference on Applied Statistics, October 19-22, 2004, Atlanta.

Invited to present “Statistical Pattern Recognition in High Dimensions” at COMPSTAT 2004: the 16th Symposium of IASC, August 23-27, 2004, Prague, Czech Republic.

Invited to present plenary talk “Classification Using Class Cover Catch Digraphs” at IFCS 2004: The 2004 Meeting of the International Federation of Classification Societies, July 15-18, 2004, Chicago

Invited to present plenary talk “Perspectives on Mathematical Image Analysis” at Mathematical Imaging and Image Analysis, January 24-27, 2004, Gainesville, Florida.

Invited to present “Statistical Pattern Recognition in High Dimensions” at Operations Research-Statistics Workshop, January 11-13, 2004, Sante Fe.

Invited to present “Segmenting Magnetic Resonance Images via Hierarchical Mixture Modelling” at the Department of Statistics Seminar, October 24, 2003, University of Michigan, Ann Arbor.

Invited to present “Statistical Pattern Recognition in High Dimensions” at the DARPA DSO Tech meeting, July 18-20, 2003, San Diego, California.

Invited to present “Segmenting Magnetic Resonance Images via Hierarchical Mixture Modelling” at the Eastern North American Region (ENAR) of the International Biometric Society annual meeting, March 30-April 2, 2003, Tampa, Florida.

Invited to present “Random Disambiguation Paths” at the Army Conference on Applied Statistics, October 30 - November 1, 2002, North Carolina State University.

Invited to present “Integrated Sensing and Processing for Statistical Pattern Recognition” at the DARPA DSO ACMP ISP Kickoff meeting, September 18-19, 2002, Annapolis, Maryland.

Invited to present “Assessing the Significance of Excursion Regions in Brain Imagery via Importance Sampling” at the Summer Workshop in fMRI Informatics, July 8-10, 2002, Dartmouth College.

Invited to present “Consistent Estimation of Mixture Complexity” at the Workshop on Developments and Challenges in Mixture Models, June 2-4, 2002, Cleveland, Ohio.

Invited to present “Class Cover Catch Digraphs for Gene Expression Analysis” at the Eastern North American Region (ENAR) of the International Biometric Society annual meeting, Washington, DC, March 2002.

Invited to present “Class Cover Catch Digraphs for Gene Expression Analysis” Seminar, Department of Mathematics, University of Maryland: March 14, 2002.

“Investigating the structure of high dimensional pattern recognition problems” Johns Hopkins University Whiting School of Engineering Inaugural Professorial Lecture, November 29, 2001.

Invited to present “Assessing the Significance of Excursion Regions in Brain Imagery via Importance Sampling” at The International Statistical Institute’s 53rd Biennial Session, Seoul, South Korea, August 2001.

Invited to present “Integrated Sensing and Processing” at MSRI Modern Signal Processing, Berkeley, CA, June 2001.

Invited to present “The Adaptive Data Cube: An Experiment in Hyperspectral Pattern Recognition” at the 33rd Symposium on the Interface: Computing Science and Statistics, Orange County, CA, June 2001.

Invited to present “Unmanned Aerial Vehicle-Based Remote Sensing for Detecting Minefields” at the Eastern

North American Region (ENAR) of the International Biometric Society annual meeting, Charlotte, NC, March 2001.

Invited to present “The Adaptive Data Cube” at the Integrated Sensing and Processing Workshop, Boulder, CO, August 2000.

Invited to present “Investigating an Artificial Nose” at Maryland Chapter of the American Statistical Association Annual Banquet, Columbia, MD, June 2000.

Invited to present “Statistical Pattern Recognition for an Artificial Nose” at the 1999 WSE Anniversary Symposium, Baltimore, MD, November 1999.

Invited to present “Optimizing Classification Performance” at the 1999 Joint Statistical Meetings, Baltimore, MD, August 1999.

Invited to present “Advanced Data Analysis Methods for Analyte Recognition from Optical Sensor Arrays” at the 1999 DARPA Applied and Computational Mathematics Program Conference, San Francisco, CA, July 1999.

Invited to present “Optimizing Sensor Fusion” at the 1999 International Conference on Imaging Science, Las Vegas, NV, June 1999.

Invited to present “Image Analysis via Spatial Scan Density Estimates” for the Iowa State University Department of Statistics Lecture Series, Ames, IA, June 1998.

Invited to present “Spatial Scan Density Estimates” at the 1998 SPIE International AeroSense Symposium, Orlando, FL, April 1998.

Invited to present “Introduction to Mathematical Imaging and Image Processing” at The Mathematical Association of America Meeting, Baltimore, MD, January 1998.

Invited to present “Applications of Change Point Analysis” at the NCI Lung Imaging Workshop, Bethesda, MD, January 1998.

Invited to present “Nonparametric Discriminant Analysis in High Dimensions via Generalized Interpoint Distances” at the Army Conference on Applied Statistics, Fairfax, VA, October 1997.

Invited to present “Borrowing Strength for Nonhomogeneity Detection in Digital Mammography” in a session titled “Image Analysis, Including Applications to Biomedicine” at The International Statistical Institute’s 51st Biennial Session, Istanbul, Turkey, August 1997.

Invited to present “Nonparametric Discriminant Analysis in High Dimensions via Generalized Interpoint Distances” in a session titled “Current Issues with High-Dimensional Data” at The 60th IMS Annual Meeting, Park City, UT, July 1997.

Invited to present “Approximate Distance Clustering” in a session titled “Dimension Reduction and Projection Pursuit” at The 29th Interface of Computer Science and Statistics, Houston, TX, May 1997.

Invited to present “Spatial Scan Statistics and the Detection of Clustered Microcalcifications in Digital Mammography” as a Colloquium to the Division of Cancer Prevention and Control, National Cancer Institute, National Institutes of Health, Rockville, MD, April 1997.

Invited to present “Approximate Distance Clustering” for the George Mason University Center for Computational Statistics Lecture Series, Fairfax, VA, October 1996.

Invited to present “A Spatial Scan Statistic for Stochastic Scan Partitions” Workshop on Spatial Point Processes, Dahlgren, VA, May, 1996.

Invited to present “Segmentation of Random Fields via Borrowed Strength Density Estimation,” the Whiting School of Engineering Junior Faculty Lecture, Baltimore, MD, May 1996.

Invited to present “Semiparametric Nonhomogeneity Analysis,” Johns Hopkins University Department of Biostatistics Seminar, Baltimore, MD, December 1994.

Invited to present “Image Analysis Using Fractal Features,” National Cancer Institute, National Institutes of Health, Bethesda, MD, February 1993.
